

July 23rd 2019

Dear Colleagues,

As previously announced, the 3rd FALAN Congress will take place in Belém do Pará from 14th to 17th September 2020.

The Scientific Committee is in the process of planning the conference. To ensure that a broad cross-section of disciplines within the field are represented in the program, the Scientific Committee invites you to submit a symposium proposal, so that you can have significant input into the intellectual content of the meeting.

Proposals should be submitted to the Scientific Committee by accessing the following link: <http://sbnec.org.br/falan/propostas/index.php>

Deadline for proposal submissions: August 31st, 2019

The most important criterion in the selection process will be the scientific quality of the speakers. A balanced distribution of scientists from different countries within the region will also be considered a requirement. The number of speakers can either be 3 or 4.

It is worth mentioning that despite the Organizing Committee attempting its best to secure funding, the budget will likely be insufficient to sponsor all activities. Thus, we highly recommend chairs to alert potential speakers that they will likely need to provide their own support for attendance (travel and/or accommodation).

Your participation in this process is greatly appreciated.

On behalf of the Program Committee, I thank you and look forward to your suggestions!

Sincerely,

3rd FALAN Scientific Committee
